The RCI Custom Products **CS Series** Wall Plates were developed to meet the base needs of today's working AV integrator. CS Series wall plates are available in select 1 and 2 gang configurations, and are made with durable brushed 430 series stainless steel, providing a rugged commercial grade wall plate with an aesthetically pleasing appearance. CS Series wall plates are assembled with a variety of pre-installed connectors, including XLR, F, BNC, RJ45, VGA and RCA, and many others in the most popular configurations. Assemblies are provided with no logo, engraving or silk screening. Matching mounting hardware is included.

A & E SPECIFICATIONS

The wall plate shall be RCI Custom Products Model CS_____. Plate shall be 22 gauge vertically brushed #430 stainless steel. Connectors shall be fixed and attached to the plate using # 440 screws and KEP nuts. The plate shall bear no engraving or logo markings. Matching 1 1/2" mounting screws shall be provided for mounting and installation to standard gang size electrical boxes.
