

FEATURES

- Lightweight 3 piece aluminum body
- Durable Black or White Powder Coat Finish
- Available in 1, 2 ,3 and 4 gang sizes
- Cable access via mouse hole
- Deep set for use with most signal extenders
- Press nuts to mount standard gang plates
- Rubber feet to protect table tops
- Made In The USA

RCI Custom Products **SE "03" Series Table Top Enclosures** are designed to provide a convenient, non invasive, and aesthetically pleasing way mount standard wall plates and most commonly used signal extenders.

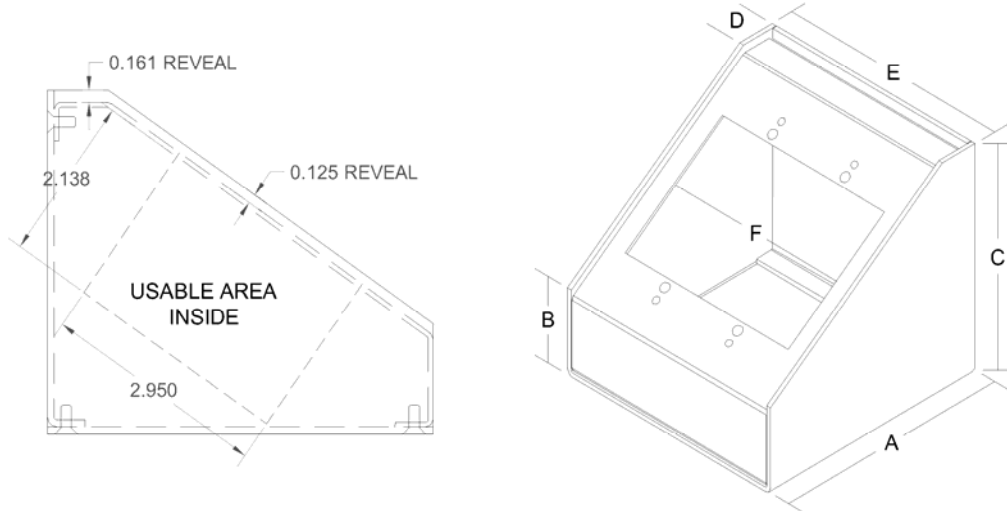

Standard sizes include 1,2, 3 and 4 gang sizes, but may be custom made in 5-10 gang sizes. Three piece construction provides screw together 0.90 aluminum back and sides, and an 0.60 face plate. Finished in durable black textured powder coat. Rubber feet are included to protect table surfaces and cable access via "mouse hole" is also provided.

SE Series Enclosures are perfect for mounting volume controls, switches, lamps, signal extenders and control devices of all types.
