

FEATURES

- Aluminum connector with stainless steel grip for rugged use
- Provide watertight seal
- Prevents cable pull out
- Connector prevents any tension on conductors

The **RCI Custom Products** SR Series Stage Box Strain Reliefs are designed to apply to the box end of the SB Series stage box assembly. These high quality connectors provide the optimum protection to the conductors and provide fast and secure connection to the stage box assembly. Connectors vary dependant on size of multi pair cable.

SR-1B	Box end strain relief for 6-12 pair cable
SR-2B	Box end strain relief for 16 pair cable
SR-3B	Box end strain relief for 20-36 pair cable
SR-4B	Box end strain relief for 58 pair cable

A & E SPECIFICATIONS

The Strain relief used on the SB Series Stage Box assembly (box end) shall be the SR Series. This connector must be compatible to the assembly and be of a specific size to accommodate the number of pairs of the multi pair cable used with the complete assembly. Specify _____ SR-1B, SR-2B, SR-3B, SR-4B.
