

# Standalone Kiosk

For iPad, Windows & Android

[www.rcicustom.com](http://www.rcicustom.com)

Interactive kiosks for any project.

Built from steel and unbreakable thermoplastics, our Standalone model is made to secure tablets for public use.

This freestanding kiosk features a stable, non-tip base and a large, lockable body with plenty of room for accessories and branding.

## Standard Features

- Radio-transparent tablet enclosure is scratch and fingerprint-resistant.
- Powdercoated for a durable, professional finish.
- Restricts access to tablet buttons while allowing private access without disassembly.
- Tablet can be displayed in either landscape or portrait mode.
- Secondary cable exit through the base of the kiosk for hidden AC power supply and a cordless appearance.
- Designed to meet ADA compliance.

## Options

- Home button and/or camera access
- Custom powdercoat color
- Can be bolted to floor
- Wheel stand base
- Branding panels
- Vinyl body wrap
- Printer & barcode scanner integration
