

WB-R2G, WB-R3G, WB-R4G

FEATURES

- Sturdy steel construction
- Mounts in either new or retrofit (old) applications
- Ships complete with mounting hardware
- Available in 2, 3 and 4 gang versions
- Finish unit using RCI MI Series inserts
- Wall box can be mounted either vertically or horizontally
- Standard finish is white or prime

The WB-R2G, WB-R3G and WB-R4G Recessed Wall Plates are designed to provide recessed mounting for A/V connections in an attractive enclosure. The wall plates are perfect for hotels, conference centers, churches, meeting rooms, airports and other public spaces where recessed mounting is needed.

The wall plates ship with all necessary hardware to install. The units may be mounted either vertically or horizontally.

Units are available in 2 gang, 3 gang or 4 gang versions and accept standard modular wall insert plates. Customize the wall plate by using RCI Custom Products online PanelBuilder design tool or the RCI MI Series modular plates.
