

# Wall Mount Kiosk

For iPad, Windows & Android

[www.rcicustom.com](http://www.rcicustom.com)

Easily share & interact with your visitors.

This wall-mounted enclosure is a great choice for interactive projects with limited floor space.

When mounted correctly, the angled mounting bracket is designed to place the screen at the perfect angle for ADA accessibility and visitor interaction.

## Standard Features

- Radio-transparent tablet enclosure is scratch and fingerprint-resistant.
- Restricts access to tablet buttons while still allowing private access without disassembly.
- Tablet can be displayed in either landscape or portrait mode.
- Secondary cable exit through the back of the bracket for hidden AC power supply and a cordless appearance.
- Designed to meet ADA compliance.

## Options

- Home button and/or camera access
- Branding panels
- Can be placed over a standard wall outlet (where allowed by code)
- Printer, card reader, and barcode scanner integration
