

FEATURES

- Rack mount ears for any type of professional or consumer equipment
- Available in 1 RU through 6 RU sizes
- 11 gauge aluminum one piece assembly
- Sold in pairs
- Finished in anodized black

The RCI Custom Products **RE** Rack Mount Equipment Ears are designed to mount in any standard EIA equipment cabinet. The units can be ordered in one through six rack spaces to mount virtually any equipment. The heavy gauge aluminum material provides additional strength and integrity when mounting heavy equipment. Additionally, an **RE-FP** filler panel can be ordered for undersized equipment.

Rack Ears are come with rack mounting holes appropriately spaced, and are finished in black anodize.

A & E SPECIFICATION

The rack mount ears shall be RCI Custom Products Model _____ (RE-1, RE-2, RE-3, RE-4, RE-5, RE-6) and shall be formed from 11 gauge aluminum with a black anodize finish. Units shall be one-piece (per ear) construction and conformed to mount necessary equipment in a standard 19" EIA rack mounting application. For under-sized equipment, the RE-FP filler panel shall be required.
