

**FEATURES**

- Rack mountable equipment shelves
- Available in 2 RU and 3 RU sizes
- 16 gauge (.062) aluminum one piece assembly
- Front and rear lip for increased strength and safety
- Finished in black textured powder coat

The RCI Custom Products **RS** Rack Mount Equipment Shelves are designed to mount in any standard EIA equipment cabinet. The units can be ordered in two or three rack spaces.

The shelves are manufactured from .062 (16 gauge) aluminum. These one piece assemblies offer additional strength over conventional steel shelves as a result of the heavy gauge aluminum material, the one piece fabrication process and the 1/2" lip on the front and back of the shelf.

The RS Series shelves are finished in a black textured powder coat.

P/N	Description
RS2	2 RU, 3 1/2" equipment rack shelf, aluminum, black texture powder coat
RS3	3 RU, 5 1/4" equipment rack shelf, aluminum, black texture powder coat
