- Custom front panel sold separately
- Customizable, blank rear panel
- Made in the USA

CH Series Rack Chassis are an effective and simplistic way to enclose and finish any panel mounted connectivity. Available in standard 1, 2, 3 4, and 6 RU sizes. Made with durable, lightweight .063 unfinished aluminum, for protection, strength, and integrity. Chassis have removable top and bottom panels to allow convenient access inside the chassis, and a blank rear panel to allow for custom connectivity configuration and text marking.

Front panel (not included) is available separately. Options include: .125 Flat, .090 or .063 Flanged, and may be customized with a wide variety of connectivity, engraved or laser text, and graphics.

A & E SPECIFICATIONS

The custom chassis shall be RCI Custom Products Model _____ (CH-1, CH-2, CH-3, CH-4, CH-6) and require _____ (1, 2, 3, 4, 6) rack units (R.U.). Assemblies shall be made from .063 unfinished aluminum and have removable top and bottom covers. Rear panel shall be blank and may be customized or field modified to contain required connectors, text marking, outlets, and cables. Front Panel shall be ordered separately. Front and rear panels may be customized with connectors, punched openings, and engraved, laser etched or silk-screened graphics by RCI Custom Products.
